

PitchCoach AI

AI-powered coaching for every pitch, every format, every stage.

PRODUCT OVERVIEW · MARCH 2026

PitchCoach AI gives you an expert coach in your pocket — available the moment you need it, as many times as you need it. Whether you are preparing to pitch investors, sharpen a one-minute introduction, or run through a full presentation, the platform analyses what you bring and tells you exactly what to fix, what is working, and what to practise next.

There are four coaching experiences. Each one is designed for a specific scenario. Together they cover the complete pitch development journey — from the first draft of your deck through to a polished, investor-ready full presentation.

01 Pitch Deck Coach	02 Elevator Pitch Coach	03 Pitch Deck Live Coach	04 Elevator Pitch Live Coach
---------------------------	-------------------------------	--------------------------------	------------------------------------

The Premise

We only have a minute. In almost every high-stakes conversation — the investor meeting, the job interview, the partnership pitch, the chance encounter at a conference — you have approximately one minute to earn the next minute.

PitchCoach AI is built on one conviction: the ability to communicate with clarity, confidence, and structure is a skill. It can be learned. It can be measured. And with the right feedback, it can be dramatically improved.

THE FOUR COACHING MODULES

01

Pitch Deck Coach

Upload your deck. Get an expert audit.

Your pitch deck is often the first thing an investor sees. Before they hear your voice, they are forming an opinion based on what is on the slide. This module gives you a rigorous, structured review of both what your deck says and how it looks.

WHAT YOU GET

- › Content scored against a proven 10-slide investor pitch framework — you see exactly which slides are strong, which are weak, and which are missing entirely.
- › Visual design audit across five dimensions: slide density, colour palette, typography, data presentation, and brand consistency.
- › Specific strength and one concrete improvement action identified per slide.
- › Top three priority actions ranked by impact.
- › Two upload-and-feedback cycles: submit your current deck, receive feedback, improve it, then submit your revised version.
- › Access to the online Pitch Deck course and resource library for one full year.
- › Downloadable feedback report after each submission.

HOW IT WORKS

Upload. Drag and drop your deck as a PDF or PPTX file.

Analyse. AI reads your entire deck and evaluates content and visual design.

Review. Full scored report generated — slide by slide.

Improve and return. Revise your deck using the feedback, then upload your final version for a second round of analysis.

AI note: deck content analysis and written feedback generated by Claude (Anthropic). Visual design evaluation uses Claude's document understanding capability.

02

Elevator Pitch Coach

Submit your script. Get it sharpened.

An elevator pitch is not a shorter version of your full pitch — it is a completely different discipline. Every word has to earn its place. This module evaluates your written script against two different elevator pitch frameworks, giving you a choice of structure and the feedback to make whichever you choose as strong as possible.

WHAT YOU GET

- › Choose from two elevator pitch frameworks — each with a different structure and purpose. Both are evaluated against their own criteria.
- › Five-element scoring per framework: each element assessed, scored, and explained independently.
- › Your own words quoted back to you so you can see exactly how your script maps to each element.
- › Rewrite suggestion for every element — a concrete alternative to compare against your own version.
- › Estimated spoken duration, word count, and tone analysis.
- › Two upload-and-feedback cycles per framework: submit, receive feedback, improve, resubmit.
- › Access to the online Elevator Pitch course and resource library for one full year.

HOW IT WORKS

Choose your format. Select which elevator pitch framework you want to work against.

Submit. Paste your script or upload as PDF, Word, or plain text.

Review. Element-by-element feedback with scores, excerpts, and rewrite suggestions.

Refine and return. Sharpen your script using the feedback, then resubmit for your second analysis.

AI note: script evaluation, element identification, and rewrite suggestions generated by Claude (Anthropic).

03

Pitch Deck Live Coach

Present your pitch. Hear how it lands.

Everything in the Pitch Deck Coach, plus the ability to record yourself actually presenting your deck — because knowing what your slides say is very different from knowing how you come across when you present them. This module adds three full upload-and-live-presentation cycles on top of the written deck analysis.

WHAT YOU GET

- › Everything included in Pitch Deck Coach: deck content analysis, visual audit, two upload-and-feedback cycles, and one year of course access.
- › Three additional live presentation cycles: upload your deck, record yourself presenting it, and receive combined deck-and-delivery feedback.
- › In-browser recording — no app required. Video or audio mode.
- › Live delivery feedback covering pacing, clarity, confidence, and vocal presence.
- › Body language assessment from video recordings: eye contact, posture, and gestures.
- › Paste your transcript for deeper structural analysis alongside your delivery feedback.
- › Coaching drills personalised to your specific weak points after each live session.

HOW IT WORKS

Upload deck. Add your current pitch deck.

Record. Present your deck live. Video or audio, directly in the browser.

Review. Combined feedback on your deck content and your live delivery.

Repeat. Three live presentation cycles in total, alongside the two written deck submissions.

AI note: deck content and written feedback by Claude (Anthropic). Live video and voice analysis — delivery, body language, vocal confidence — by Gemini Vision (Google). Both models contribute to the final coaching report.

04

Elevator Pitch Live Coach

Record yourself. Hear what they hear.

Everything in the Elevator Pitch Coach, plus four opportunities to record yourself delivering your elevator pitch live. Knowing what to say is only half the battle — how you say it determines whether you get the meeting. This module closes that gap.

WHAT YOU GET

- › Everything included in Elevator Pitch Coach: two frameworks, script evaluation, element-by-element feedback, rewrite suggestions, two upload-and-feedback cycles, and one year of course access.
- › Four live recording cycles: record your elevator pitch delivery and receive coaching on how you come across.

- › In-browser recording — video or audio, no app required. Maximum three minutes per recording.
- › Delivery feedback: pacing, clarity, energy, and confidence.
- › Body language feedback from video: eye contact, posture, and gesture.
- › Coaching drills targeted at your weakest delivery dimension after each session.
- › Re-record and compare your progress across all four live sessions.

HOW IT WORKS

Choose your format. Select which elevator pitch framework you are working on.

Record. Deliver your pitch live. Up to three minutes.

Review. Feedback on both the content and the delivery of your pitch.

Repeat. Four live recording cycles in total, building on each round of feedback.

AI note: script and content analysis by Claude (Anthropic). Live video and voice analysis — delivery, pacing, confidence, body language — by Gemini Vision (Google). Both models contribute to each coaching report.

WHAT'S INCLUDED — AT A GLANCE

Offerings Overview

Each coaching package is designed as a complete before-and-after experience — combining AI feedback with access to online course content so that every piece of feedback has a learning pathway attached to it.

Feature	Pitch Deck Coach	Elevator Pitch Coach	Pitch Deck Live Coach	Elevator Pitch Live Coach
COURSE & RESOURCES				
Online course access	✓	✓	✓	✓

Extra upload + feedback cycles	Discounted	Discounted	Discounted	Discounted
Extra live recording sessions	—	—	Discounted	Discounted

Add-on purchases are available exclusively to clients who have already purchased any of the four packages above. Additional upload-and-feedback cycles or live recording sessions can be bought at a discounted rate — useful when preparing different versions of a pitch for different audiences, incorporating feedback from investors or grant panels, or updating materials after significant developments in your business.

THE AI TECHNOLOGY BEHIND PITCHCOACH AI

Two Best-in-Class AI Models, Working Together

PitchCoach AI uses two of the world's leading AI models, each deployed for what it does best. The result is a coaching experience that covers both the written and the live dimensions of pitching with genuine depth.

Task	AI Model	Why
Pitch deck content analysis	Claude (Anthropic)	Expert-level document understanding and structured evaluation
Visual design audit of slides	Claude (Anthropic)	Pattern recognition across colour, typography, and layout
Script evaluation and scoring	Claude (Anthropic)	Precise language analysis and element identification
Rewrite suggestions	Claude (Anthropic)	High-quality natural language generation
Feedback report writing	Claude (Anthropic)	Coherent, coaching-quality narrative feedback
Live video analysis — body language	Gemini Vision (Google)	Native multimodal video understanding — posture, eye contact, gesture
Live audio analysis — vocal delivery	Gemini Vision (Google)	Tone, pacing, confidence, and clarity from audio/video recordings
Recording transcription	Gemini / Whisper	Accurate speech-to-text across languages and accents
Synthesis of live feedback	Claude (Anthropic)	Gemini's analysis is synthesised by Claude into coherent coaching output

THE COACHING JOURNEY

Try. Learn. Improve. Try Again.

Every package is built around a deliberate before-and-after cycle. The first submission gives you your baseline. The course gives you the knowledge. The second submission gives you the evidence of your improvement.

1	Submit your first version Upload your deck or script as it is right now. This is your baseline — honest and unpolished is fine.
2	Receive specific feedback The AI returns a scored, structured report. Specific strengths. Specific improvements. Specific rewrites where relevant.

3**Go through the course**

Use the online course and resource library to address the gaps the feedback identified. Learn the principles behind the feedback.

4**Return and resubmit**

Come back with your improved version. Submit again. The score difference tells you how far you have come.

PitchCoach AI. The coaching you need, available the moment you need it. Upload your deck, submit your script, record your pitch — and walk away knowing exactly what to do next.
