## Screen Inventory

### Product 1 — Pitch Deck Analyser

by AutomagiKal · March 2026 · Confidential

### About this document

This document defines every screen in the Pitch Deck Analyser product (Product 1), in the order a user encounters them. For each screen it specifies the screen name, URL route, purpose, all information and content displayed, navigation elements, and every primary and secondary action available.

This document is intended for use by the development team, UI/UX designers, and product reviewers. It should be read alongside the Technical Specification and User Flow diagram.

### Product summary

|               |                                                                                                                                                                                      |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product name  | Pitch Deck Analyser                                                                                                                                                                  |
| Module        | Module 1 (M1) × 2 cycles                                                                                                                                                             |
| What it does  | User uploads their pitch deck, receives a scored AI feedback report, revises externally, and uploads again for a second analysis. Provides before-and-after evidence of improvement. |
| AI engine     | Claude Sonnet 4.6 (Anthropic)                                                                                                                                                        |
| Total screens | 11 screens across the full two-cycle journey                                                                                                                                         |
| Route prefix  | /dashboard/pitch-deck-analyser                                                                                                                                                       |

### Screen map — order of screens

| #  | Screen Name                  | Route                                    | Notes                               |
|----|------------------------------|------------------------------------------|-------------------------------------|
| 01 | Landing Page                 | /                                        | Public — entry point for all users  |
| 02 | Create Account               | /register                                | Collected before product selection  |
| 03 | Verify Email                 | /verify-email                            | Required before any platform access |
| 04 | Browse Products & Pricing    | /pricing                                 | Country-aware payment routing       |
| 05 | Dashboard                    | /dashboard                               | Shows counters, history, next step  |
| 06 | Module Entry — Upload & Name | /dashboard/pitch-deck-analyser/new       | Cycle 1 and Cycle 2 use same screen |
| 07 | Analysis in Progress         | /dashboard/pitch-deck-analyser/analysing | Processing state — no user input    |

| #  | Screen Name        | Route                                              | Notes                                 |
|----|--------------------|----------------------------------------------------|---------------------------------------|
| 08 | Feedback Report    | /dashboard/pitch-deck-analyser/session/[id]        | Full report view — Cycle 1 and 2      |
| 09 | Session History    | /dashboard/history                                 | All saved sessions across all modules |
| 10 | Session Comparison | /dashboard/pitch-deck-analyser/compare/[id1]/[id2] | Cycle 1 vs Cycle 2 delta view         |
| 11 | Add-on / Upsell    | /dashboard/pitch-deck-analyser/upgrade             | Shown when counter reaches 0          |

## Screen 01 Landing Page

## PURPOSE

## What this screen does

- First impression for all new users arriving via referral, accelerator recommendation, social post, or direct search.
- Must communicate the core value proposition within 10 seconds.
- Primary goal is to get the user to create an account — not to browse products yet.

## PAGE STRUCTURE &amp; CONTENT

## Navigation bar

- Logo — PitchCoach AI (links to home)
- Nav links: How it works · Products · Pricing · Login
- Primary CTA button: Get started

## Hero section

- Headline: Large, bold. Communicates the core promise.
- Sub-headline: One or two sentences expanding on the value.
- Two CTA buttons: Get started (primary) · See how it works (secondary, scrolls down)
- Supporting visual: illustration or product screenshot

## Social proof strip

- Short statement of credibility — e.g. used by founders, coaches, accelerators

## How it works section

- 3–4 step overview: Upload → AI analyses → Review report → Improve and resubmit
- Module icons with short labels

## Products overview section

- 5 product cards with name, what modules are included, and a short description
- Each card links to /pricing

## Footer

- Links: Products · Pricing · About · Contact · Privacy Policy · Terms
- Brand tagline
- Copyright line

## ACTIONS

## Primary actions

- **Get started** → /register
- **Login** → /login

## Secondary actions

- See how it works → scrolls to how-it-works section
- Product card clicks → /pricing
- Nav links → respective sections or routes

## NOTES &amp; RULES

## Rules

- No product purchase available on this screen — all CTAs drive toward account creation.
- Logged-in users redirected to /dashboard automatically.

## Screen 02 Create Account

| PURPOSE                  |                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| What this screen does    | <ul style="list-style-type: none"><li>Collects account details including country — required before product selection to determine the correct payment gateway (Paystack for SA, Merchant of Record for all others).</li><li>Supports email/password and OAuth registration.</li></ul>                                                                            |
| PAGE STRUCTURE & CONTENT |                                                                                                                                                                                                                                                                                                                                                                  |
| Page heading             | Create your account                                                                                                                                                                                                                                                                                                                                              |
| OAuth options            | <ul style="list-style-type: none"><li>Continue with LinkedIn (primary)</li><li>Continue with Google</li><li>Divider: "or register with email"</li></ul>                                                                                                                                                                                                          |
| Registration form fields | <ul style="list-style-type: none"><li>First name (required)</li><li>Last name (required)</li><li>Email address (required, validated)</li><li>Password (required) — strength indicator shown in real time</li><li>Company name (required)</li><li>Country (required) — dropdown, full country list</li></ul>                                                      |
